

Dear partners,

The Université Savoie Mont Blanc is hosting the UNITA Matching Event on Green Energy on

**Tuesday 5 and Wednesday 6 November 2024
in Chambéry**

The scientific theme of this event is: "Energy mixes in mountain communities favouring local renewable energies: resource, conversion, transport, storage, systems, policy political and social issues". This meeting is aimed at people from engineering sciences, humanities and social sciences, with the aim of working collectively on the energy transition of our territories topics.

The aim of these days is to strengthen our UNITA community by bringing together researchers who share the same scientific interests and initiating or strengthening collaborative projects. Following this event, a call for 'Starting Grants' will be published on the same subject, enabling the funding of research projects associated with this theme.

We are therefore asking each institution to send us, **before 13th September**, the list of researchers from your institution who will be taking part in this event, using the attached table. Once we have received this list, participants will be able to register on a dedicated platform, allowing us to plan for exchanges and logistical issues.

The number of participant per university is already set, see below:

UNIVERSITY	TEACHERS/RESEARCHERS	DIMENSION CLASSES	
		CLASS	No RESEARCHERS
UNITO	2152	1000	6
USMB	640	600	4
UNIZAR	1806	1000	6
UBI	826	700	4
UVT	997	800	5
UPPA	630	600	4
UNITBV	762	700	4
UNIBS	619	600	4
IPG	271	300	2
UPNA	507	500	3
HES-SO	2100	1000	6
TOTAL/AVERAGE	11310	7800	48

PARTICIPANTS 50

For any questions relating to the organisation of the event, please contact:
unita.office@univ-smb.fr

For scientific questions, please contact : Benoit Stutz - recheru@univ-smb.fr

This email is addressed to:

- UNITA offices
- TT2.3 co-leaders
- TT4.2
- Vice-rector Research USMB
- Referent Hub Green Energy USMB

Yours sincerely.
