

The China-Spain New Energy and Materials Forum for Academic and Industrial Cooperation

Global industry- academic cooperation have played an important role in promoting Technologies innovation and people to people exchanges. China and Spain has a long history of friendship and deep cooperation on education, research and industry development. The cooperation between. In order to further promote cooperation between China and Spain in technological innovation and industrial application, share and discuss the experience and models of cooperation, Beijing university of Chemical Technology, cooperated with Association for China-Spain Science and Technology and partners in Industry, plan to hold the 2024 "China-Spain New Energy and Materials Industry-academic Cooperation Forum", to provide a platform for exchange and cooperation between China and Spain.

Time and Address

Time: November 12, 2024 (Tuesday)

Address: Conference Center of Beijing University of Chemical Technology
No. 15, Beisanhuandonglu, Chaoyang District, Beijing, China

Organization

Host Organizer: Beijing University of Chemical Technology(BUCT)

Co-organizers: Association for China-Spain Science and Technology, China CRRC Corporation Limited, China Power Engineering Consulting Group Co., Ltd. (CPECC) of China Energy Engineering Group Co., Ltd., Wanhua Chemical Group Co.,Ltd., Taishan College of Science and Technology

Language

The forum will be held onsite. The language can be Chinese or English(Bilingual Translation will be provided). The PPT is required for English.

Expected Participants

Representatives from universities and research institutions

Representatives from industry associations and enterprises

Representatives from Spanish Embassy in China and Chinese Embassy in Spain

Representatives from related government sectors

Main Topics

Industry-academic cooperation for new energy and materials between China and Spain.

Mainly covering technical exchanges and Industry-academic cooperation in the fields of new energy, energy conservation, advanced materials, bio-manufacturing, environmental protection and related research areas.

Transportation and Accommodation

The conference secretariat will provide round-trip local transportation from the airport to the hotel in Beijing, also the hotel reservation service for all participants.

Guizhou Plaza is the nearest hotel to BUCT (Just at the west gate of BUCT, the price is about 100 US\$/night.)
